

people do with the 60 days. We screw off 58 of them and then complain on the last 2 days that we can't get things done. That isn't a criticism of the 60 days, that is the criticism of the people involved in it. Now Senator Carpenter did make one valid thing there shortly. He said that he tried to move all of these bills forward, and that since that time he predicted that we wouldn't be able to get back to General File. If you are deliberately engineering a prevention of getting back to General File obviously we are never going to get there. So what I am saying is that lets get to general file and at least in these last hours try and make an attempt to do the things that we are supposed to do. Now, one final thing. The leadership of the chair from hereon if this motion were adopted could get us through most of those bills. The Chair would have to tightly control this body and make sure that we use only 10 or 12 minutes on a bill and that we move forward rapidly. When it took more the Chair would have to take the leadership and make sure that we didn't waste any more time. I think that the Chair can do that.

SPEAKER: Those in favor of the DeCamp motion vote aye, those opposed vote no. Have you all voted? Clerk will record.

CLERK: 31 ayes, 14 nays.

SPEAKER: The DeCamp motion passes, the rules are in a state of suspension and we will now go directly to General File with the underlined bills.

CLERK: Which one? Now 656 has failed to advance several times.

SPEAKER: Senator Syas.

SENATOR SYAS: It may not have been in the motion but there is one bill that must go under the rules and that is advanced and I so move and that is the A bill on 875. You have got to take the "A" bill, that is in the rules. I'm not trying to pull a darn thing, but that has got to go with the other one. I so move.

SPEAKER: Where is 875?

SENATOR SYAS: It is on Select File and the "A" Bill is over here on General File.

SPEAKER: In the judgment of the Chair

(end belt #2)

(start belt #3)

you are correct. As Speaker I move that to the top of General File right now.

SENATOR SYAS: Then I so move that it be advanced.

SPEAKER: Does anyone have any objections to that, now is the time to voice them. I think that Senator Syas is correct in this. We have a procedural snag, the other bill has moved on and under our rules the A bill is supposed to follow. Is there an objection to that? Alright we are on LB875. Whose bill is it?
